

SENDS.EMAIL – MASTER YOUR INBOX WITH AI

1

SIGN UP WITH YOUR OWN ACCOUNT

Take the first step towards a smarter email experience by creating your account on Sends Email. Our user-friendly sign-up page makes it effortless. Simply enter your first name, last name, and email address. Set up a secure password and confirm it for added security. Configure your email settings with SMTP and IMAP server addresses to ensure seamless email management. You can sign up directly using our straightforward form or choose the convenience of signing up with your Google account. Join us and revolutionize your email communication today!

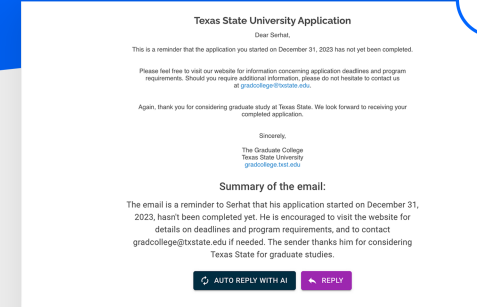

2

A SIMPLE DASHBOARD

Navigate your emails with unparalleled ease using our intuitive dashboard. The dashboard offers a comprehensive overview of your email activity, neatly displaying all received emails and essential functionalities. The left sidebar allows effortless navigation through different folders such as Inbox, Sent, Trash, Drafts, Junk E-Mail, and All Mail. Easily access your favorite and unread emails with dedicated sections. The main section not only lists your emails but also provides options to mark them as favorites or unread, ensuring you stay organized. Compose new emails or refresh your list with a simple click, and seamlessly navigate through multiple pages with our pagination buttons. Experience a streamlined and efficient email management system designed to enhance your productivity.

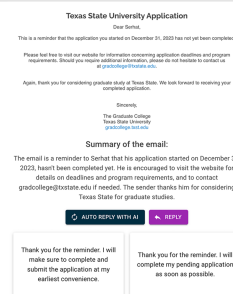

3

DON'T LOSE TIME READING LONG EMAILS!

Transform the way you handle lengthy emails with our AI-powered email summary feature. This innovative tool displays a detailed view of your email alongside a concise summary generated by AI. Quickly understand the main points without having to read through the entire message. At the bottom, choose to auto-reply with AI, which suggests a response tailored to the email content, or reply manually. Enhance your efficiency and streamline your email management with this powerful feature, ensuring you never miss crucial information while saving valuable time.

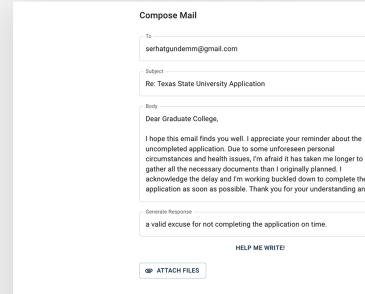

4

AI-POWERED AUTO-REPLY PAGE

Experience the future of email communication with our AI-powered auto-reply feature. Say goodbye to the hassle of drafting responses. Our intelligent system analyzes incoming emails and offers contextually appropriate replies that you can send with a single click. Whether you're acknowledging a reminder or confirming an action, our AI-generated suggestions ensure you respond promptly and professionally. It's like having a personal assistant at your fingertips, boosting your productivity without compromising on the quality of your interactions. Elevate your email experience with this cutting-edge feature that redefines how you manage your inbox.

5

GENERATE RESPONSE BY CONTEXT

Transform the way you handle lengthy emails with our AI-powered email summary feature. This innovative tool displays a detailed view of your email alongside a concise summary generated by AI. Quickly understand the main points without having to read through the entire message.
